

## Are **you** interested in becoming a secondary school science or maths teacher?

We have been allocated 5 Troops to Teachers places for September 2012 on our Graduate Teacher Programme (GTP)

**1 in maths**

**4 in physics or chemistry**

To be eligible you will need:

- an honours degree (usually 2:2 or above) in maths, physics or chemistry or an associated subject e.g. engineering for a physics place
- GCSEs or 'O' levels in maths and English at C or above (although we can arrange equivalency tests) but please note we do not accept level 2 literacy and numeracy
- Ideally 'A' levels or equivalent associated with the subjects you wish to teach
- Recent school experience - which we can help you to arrange
- A partnership with a school in which to train for the year (which needs to be accessible to Southampton) - again we can help you to arrange this

If you are interested and would like to know more then please contact:
