

Are you an aspiring Project Manager with some experience?

## Combined PRINCE2 with APMP for PRINCE2 Practitioners

**3 internationally recognised project management qualifications,  
delivered in association with QA Academy**

- ✓ Exceptionally high quality Project Management training specifically suited to your needs with a range of added features to help you understand the commercial aspects of this sector.
- ✓ Added support to assist your understanding and exam success.
- ✓ There are considerable job opportunities in the UK and worldwide with 150,000 employed in Project Management in the UK and 12,000 APM members.
- ✓ Develop your knowledge and understanding of PRINCE2 and beyond into APMP, which will help to develop you into a more rounded, capable project management professional.
- ✓ Gain PRINCE2 Foundation, PRINCE2 Practitioner and APMP for PRINCE2 Practitioners certificates.

## Who is the course for?

- ◆ This course is for Service leavers who have management experience and wish to pursue a career as a Project Manager.
- ◆ It is also a great course for anyone seeking employment at a managerial level in any industry where they have responsibility for overseeing or managing projects.

Note: this course requires prior experience of Project Management - for those with no experience, CTP's 2 week APMP course will be an ideal option, as it assumes little or no knowledge; see the [website](#) or [APMP Fact Sheet](#) for more information.

## Programme Structure

This course is delivered in 2 modules lasting 5 days each. There is a break of 3 weeks between each module to allow for examination results for PRINCE2 to be processed.

\*Candidates must pass the PRINCE2 Practitioners exam before attending Module 2.

### MODULE 1

The aim of both the PRINCE2 Foundation and Practitioner elements of the programme are to introduce students to the characteristics and contexts of a project, and the principles, processes and themes of the PRINCE 2 methodology.

The Practitioner element allows students to then apply and tailor the methodology to a project situation.

Exams take place on Day 2 (Foundation) and Day 5 (Practitioner) of the course.

### MODULE 2

The APM Project Management Qualification for PRINCE2® Practitioners course follows the syllabus provided by APM, which is built around the APM Body of Knowledge 6th edition. The course provides delegates with a detailed understanding of the underpinning tools, techniques and principles that are fundamental to successful project delivery.

The course is intensive and therefore delegates are expected to undertake revision work in the evening to prepare for the examination that will be taken at the end of the course.

#### Key exam information for module 2:

This is a closed book, 2 hour exam, comprising six essay-based questions to be selected from a total of ten. Each is worth 50 marks, and candidates are required to achieve a minimum of 165 marks out of 300 (55%) to pass.

# What Study Support will I Receive?

All pre course study material is provided along with all books and notes for the classroom. Support is provided throughout the course by the tutor.

## Further Study

Other courses currently delivered by CTP which would enhance opportunities in Project or General management include:

- ♦ Lean Six Sigma
- ♦ Commercial Financial Awareness
- ♦ Combined Quality Internal and Lead Auditor
- ♦ Leading and Managing Organisational Resilience
