

Employment Bulletin

North West and North Wales February 2020

On behalf of the Career Transition Partnership (CTP), welcome to the North West and North Wales Employment Bulletin, which will provide you with the latest jobs and business news from across the region and highlights a selection of the latest regional vacancies on our job site, **RightJob**.

In addition to this bulletin, there are plenty of other resources available to assist you in your job search: the monthly [Focus e-newsletter](#) provides job-finding, resettlement and training news via email, our bespoke [Industry Sector Guides](#) are regularly updated with the latest industry news, and the [CTP website](#) is full of useful tips, advice and dedicated [employer microsites](#), where you will find information from a range of companies with ongoing opportunities for ex-military personnel.

Regional Overview

This region covers a large geographical area including, Greater Manchester, Merseyside, Cumbria, Lancashire, Cheshire, North Wales and Isle of Man.

It boasts Manchester, one of the best cities in Europe to locate a business; Liverpool, one of Europe's fastest-growing economies and European Capital of Culture 2008; Cheshire, home to AstraZeneca's largest global R&D centre; Lancashire, a world leader in advanced manufacturing and engineering; and Cumbria, at the international cutting-edge of nuclear technology. Almost 50% of the entire output from North Wales is generated in Flintshire and Wrexham. Flintshire and Wrexham derive more of their economic output from production activities than any other location in the whole of the UK. The economies of the remainder of North Wales are smaller in output but each area has a number of important businesses. This includes ICT companies in Denbighshire; creative and healthcare businesses in Gwynedd; and marine engineering and food in Anglesey. Conwy is the area of the economy most reliant on the visitor economy but with a number of companies representing different sectors.

Each of these areas has its own varying set of employment factors which you need to take into account when job searching. Therefore, it is beneficial for you to keep up-to-date with local business news and sign up with local job search websites to get relevant, up-to-date information to aid you in your search for employment.

North West Business numbers rise by 11,000 as start-up boom continues

BUREAU VAN DIJK
A Moody's Analytics Company

The number of businesses in the North West rose by nearly 11,000 during 2019, which could indicate that the start-up boom is continuing, according to research by insolvency and restructuring trade body R3.

The figures show that the region's business community saw greater expansion last year than in 2018, when fewer than 8,000 additional businesses were created. "Start-ups create new jobs and prosperity and drive innovation. They help replace declining industries to maintain a competitive economy. However, starting a business is always a risk and inevitably, not all will succeed.
