Here's what one of our Partners had to say

The programme has been absolutely fantastic so far! The MyCareerPath platform is full of information, guidance and exercises to keep you engaged and on track with your progress to achieving career success. It is simple and easy to use but provides a wealth of different resources and has really helped boost my confidence after a career break.

The best part of the programme by far is having my own personal career mentor, Bridie, who has helped guide me through the programme content, listened to my thoughts and feelings and given me a clear, focused plan of next steps to help me achieve my end goal. The programme allows a great deal of flexibility so you really can get as much as you want out of it, at a time that works around your life, which is perfect for me!

The programme also offers a variety of webinars and virtual employer events which have been a fantastic way to find out more about 'military friendly' companies and what they have to offer. It has opened my eyes to employers that I may not have considered in the past, as well as other ways of working that will fit with my family life.

I cannot recommend the programme enough and am extremely grateful and pleased to be a part of it!
