

NEBOSH Health & Safety Management for Construction (UK)

A nationally recognised NEBOSH qualification for Managers and Supervisors involved in the Construction sector

- ✓ This 10 day course provides the knowledge, skills and an understanding of Health and Safety issues in the Construction sector
- ✓ Gain a knowledge of the legal obligations surrounding Health & Safety, and how to apply this within a construction environment
- ✓ Attendees will gain the practical skills to be able to identify and control workplace hazards
- ✓ Taught by highly qualified and experienced instructors and follows the new Mar 2021 syllabus

Who is the course for?

- ◆ The NEBOSH Health & Safety Management for Construction is for those with responsibilities under the Construction Design and Management Regulations 2015, or those seeking employment within this area
- ◆ The course is suitable for Managers and Supervisors who manage staff and contractors on construction sites, building projects and within the utilities sector.
- ◆ There are no pre requisites to attend the course

Course Structure

The course covers the practical issues involved in the management of Construction hazards and risk control. Based on best practice industry standards, the syllabus takes a risk management approach to the subject.

The course includes:

- ✓ The foundations of construction health & safety management
- ✓ Managing change and procedures
- ✓ Mobile plant and vehicles
- ✓ Musculoskeletal health and load handling
- ✓ Work equipment
- ✓ Electrical safety and Fire Safety
- ✓ Chemical and biological agents, Physical and physiological health
- ✓ Working at Height
- ✓ Excavation
- ✓ Demolition

Assessment:

The course is assessed via an Open Book Exam to take place on a National Exam date set by NEBOSH. Attendees have 48 hours to complete this online at your home or another location.

Attendees must attend an online video Closing Interview with the course tutor following the exam, to answer questions relating to questions covered in the exam, before results can be issued.

What support will I receive?

The course will be 10 days of classroom based learning supplemented by directed study and background preparatory reading during the course.

All students are issued with a copy of the supporting textbook 'RRC International NEBOSH Health & Safety Management for Construction

CTP staff will provide full details regarding the exam process and the Tutor will carry out a closing interview via Microsoft Teams or similar

Further Study

CTP also offers other NEBOSH and related Health and Safety courses including:

- ◆ NEBOSH National General Certificate
- ◆ NEBOSH National Certificate in Fire Safety
- ◆ NEBOSH Certificate in Environmental Management
- ◆ Health and Safety Lead Auditor (ISO 45001)

Students could also consider studying NEBOSH Diploma level qualifications to deepen their Health and Safety knowledge further.

Employment Opportunities

- ◆ All companies with more than five Employees must have a designated competent person for Health and Safety
- ◆ This training will benefit any Managers or Supervisors working within a Construction or Utilities organisation, who have responsibility for the safety of others in the workplace.
- ◆ For those managing Contractors working on Client sites, this qualification will ensure that legal health and safety requirements are met.
